

Võ Huỳnh Tuấn Kiêt

Danang, Vietnam | 0366383967 | vohtuankiet3004@gmail.com

Software student pivoting to Frontend. Combining Backend expertise with UI passion to build seamless web applications. Ready for a challenging internship.

PROJECTS

MERN Stack E-Commerce Platform

- “ Tech Stack: ReactJS (Vite), Tailwind CSS, Node.js, MongoDB.
- Built a responsive, high-performance UI using ReactJS and Tailwind CSS, ensuring a seamless experience across devices.
 - Developed a comprehensive Admin Dashboard with real-time analytics charts and product management features.
 - Link Github: https://github.com/tuankiet3/E-Commerce_Stroe

CDIO-Dentist

- “ Tech Stack: Node.js, Express.js, MySQL, JWT, Bcrypt
- This is the major project of the CDIO course.
 - Designed a backend for an online dental appointment booking system.
 - Developed comprehensive RESTful APIs for core functionalities, including user authentication, patient profile management, and appointment scheduling.
 - Link Github: <https://github.com/nguyenthikimhue2004/CDIO-Dentist-Backend>

Integrations System

- “ Tech Stack: C#, ASP.NET core, MySQL, SQLServer, OAuth 2.0 Client
- This Integration System is a backend application designed to manage human resources functions.
 - It features modules for employee data, salary processing, attendance tracking, and automated email notifications.
 - Built using .NET, it aims to streamline HR operations and provide essential reporting capabilities.
 - Link Github: <https://github.com/tuankiet3/Integration-System-Backend>

WORK EXPERIENCE

Intern Backend (.NET/C#) CSE Center

- Duy Tan University

July 2025 - September 2025

Da Nang, Viet Nam

Interned with **C#** and the **ASP.NET Core** framework. Participated in developing several **small projects using the .NET MVC model**, and was responsible for **building a product introduction chatbot** based on the **product database** to enhance user interaction and accessibility.

EDUCATION

Duy Tan University

Software Engineer • 2022 - 2026

GPA: 3.34/4.0

CERTIFICATIONS

Samsung Innovation Campus (SIC) 2025 Certificate of Completion

Artificial Intelligence Training Course (4/2025 - 6/2025)

Skills

- Frameworks/Tools: ExpressJS, ASP.NET Core, ReactJS (basic), Tailwind CSS, RESTful APIs, Git.
- Languages & Frontend: HTML5, CSS3, JavaScript (ES6+), C#
- Databases: MySQL, SQL Server.
- Team Collaboration: Trello is used for task management and Scrum workflow.

Language

- English: My English communication ability is at a decent level, with an 'English Score' result equivalent to TOEIC 780.
